# Turin ? Visit it and you will love Italy !

Not only is **Turin** famous for its football team Juventus and for FIAT cars, it is also one of the most fascinating cities in Italy. Its appeal lies in its interweaving of history, art and renewal. A royal city with palaces and gems of the Baroque period, in a natural alpine setting.

When you've had enough of the museums, theatres, cinemas, restaurants and cafés you will find that the sea, the Alps, the vine-covered hills (farm&culinary tourism) and the lakes are within easy reach. Piedmont is a region rich in artistic and historical sites (Sacra di San Michele, Medieval castles) as well as culinary events (Truffle Fair, Cheese, Go Wine, Open Wineries).

Do you want to learn Italian and enjoy your staying in Turin ?  
No doubts ! Come and attend our courses !

Here you find Elena and Fiorella, the two owners, and all teachers with a passion for foreign languages and other cultures, for the beauty of Turin and of the whole Piedmont region and their wish to pass on these feelings both to foreign residents in Turin and to tourists who want to get to know the Italian culture.

This is the soul of this little great school !  
Our students learn always with a smile !

**Fiorella and Elena will welcome you personally, because DIALOGO LANGUAGE SERVICES is a centre little enough to grant a **personalized and thorough approach** to its own customers creating a dynamic and sparkling working and learning environment, where **personal relationships and mutual needing are the focus** of the whole activity.**

At the same time it is a school big enough  
to **satisfy customers' objectives offering its own professionalism.**  
Dialogo Language Service mission is **professionalism, flexibility and fun.**

All our students love the cultural activities that Dialogo Language Services organizes every week: guided tours of Turin, cooking lessons, wine tasting, visit to the most important companies of the area, visits to museums and to the events organized in our city.

Great fun are also the 1-day trips to the Langhe area.  
Students learn how Italian people live and what they are proud of!

Our courses are organized in a **flexible** way according to our students' needs and expectations, taking into consideration their country of origin, learning experience, motivations, age, education and skills in written and oral language. **Multi-cultural** groups are our successful characteristic. The teaching of Italian occurs in the respect of the participants' culture, exploiting the resources and cultural richness of a multi-ethnic group. Each course aims to teach to communicate but also to make students closer to the social, political, economical and cultural environment of the town and Country where the course is held. For this reason along with work books and teaching materials, **original documents** are also used, these being an important tool for an alive and concrete communication.

The school staff can support students in organizing their free time in Turin. Near the school there are good sport facilities where students can practice swimming, tennis, football, fencing and sculling. The Valentino Park in front of the school is a really nice place for people loving jogging and cycling. Furthermore the secretary can give any indication on the most important events, exhibition and so on in town.

**1 unit = 60 minutes !**
