

Reggio Lingua, founded in 2004 by Paola Garofoli and Daniela Vezzani, is a language center specializing in the Italian language and culture. It is an official site for the CELI Certification Exams, authorized by the University for Foreigners of Perugia and a member of Asils and Eduitalia. The school is located in a historical building near the old city center as well as many beautiful locations in Reggio Emilia. Our local students also appreciate the less than 10 minute walk from the train station. The classrooms are comfortable, well-lit, air-conditioned, and all equipped with audiovisual and wifi capability. The layout of the school also includes a break-out area for students. Here, students can make use of the internet and the library which offers a wide variety of books, magazines and films especially chosen in order to enhance the study of Italian language and culture. Importantly, this area also invites students to relax and get to know each other as they drink authentic Italian coffee direct from our espresso machine.

## A wide offering of educational courses & activities to help you learn in a way that suits you best

Reggio Lingua organizes a wide variety of Italian courses for each level of proficiency (A1, A2, B1, B2, C1, C2). The courses, which take place all year-round, can be intensive or can follow an instructional program to fit any schedule. The instructional programs are created to suit the abilities and educational objectives of each student. Importantly, the setting is informal, using a method that engages the student and encourages learning in a pleasant and peaceful environment. In addition to the study of language, the school also offers cooking classes, promotes and facilitates occasions for meeting and interacting with locals and organizes guided visits and excursions along with many other cultural activities. Reggio Lingua offers its students assistance for finding comfortable and convenient lodgings during their stay.

### Group Courses

Consisting of small classes (a maximum of 8 people): to facilitate and encourage active participation by all students.

### Individual Courses

Designed to fit your needs: the hours and organization of the classes are flexible and can be created to focus on a specific learning objective.

### Courses in the home of an instructor

For a total immersion in the Italian culture: the teacher offers language lessons (individual and in pairs) as well as room and board. The student participates in the daily life of the family, sharing time and social activities. These experiences offer direct contact with various aspects of our local culture.

Discover the excellence of our traditional products as you visit local wineries, cheese and balsamic vinegar producers. What better way to get to know the food and wine of Reggio!
